

product type designation

Bus terminal RS 485 (1.5 m)

bus terminal RS 485 for PROFIBUS with plug-in cable 1.5 m.

transfer rate

transfer rate

- with PROFIBUS

9.6 kbit/s ... 1.5 Mbit/s

interfaces

number of electrical connections

- for PROFIBUS cables

2

type of electrical connection

- for PROFIBUS cables

Screw terminals

mechanical data

material / of the enclosure

plastic

design, dimensions and weights

width

50 mm

height

138 mm

depth

53 mm

net weight

353 g

fastening method

- 35 mm DIN-rail mounting

Yes

product features, product functions, product components / general

product feature

- silicon-free

Yes

product function / is supported / identification link

Yes; acc. to IEC 61406-1:2022

standards, specifications, approvals

reference code

- according to IEC 81346-2:2019

KFA

security information

security information

Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and

networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under <https://www.siemens.com/cert>. (V4.7)
