

## IMF8-S2PO60-A8

## Inductive Proximity Switch 3-Wire DC Metal Face Sensing range: *Increased*

Mind O≠0, I≠I≠1, S≠5, B≠8.

|                             |                               |
|-----------------------------|-------------------------------|
| Housing dimension           | M8×1                          |
| Mounting                    | flush                         |
| Sensing distance $S_n$      | 2 mm                          |
| Operating voltage           | 10...30 V <sub>DC</sub>       |
| Reverse polarity protection | built-in                      |
| Current consumption         | <8 mA                         |
| Current load capability     | 200 mA                        |
| Output function             | normally open                 |
| Output polarity             | PNP                           |
| Short circuit protection    | built-in, self-resetting      |
| Voltage drop                | <1.5 V @ 200 mA               |
| Switching frequency         | 400 Hz                        |
| Reduction factors           | Alu 0.45 · Brs 0.50 · SS 0.85 |
| Operating temperature       | −20...+70 °C · −3...+159 °F   |
| Protection class            | IP69k, IP67 rear end          |
| Sensing face material       | SS 1.4301                     |
| Housing material            | SS 1.4301                     |
| Switching indicator         | built-in                      |
| Connection                  | male connector M8             |
| Complies with               | CE, RoHS                      |

**Warranty** Our products are manufactured to stringent ISO 9001 European standards to ensure that our customers only receive the best quality.

Wiring diagram

Pinout

Clearance for parallel mounting

Clearance for opposing mounting

Caution! This device shall not be used if the safety of persons rely on its faultless function.
