## P1NH602

- Condition monitoring
- IO-Link 1.1
- Large detection range
- Reliably detect objects against any background

The reflex sensor with background suppression works with red light according to the angle measurement principle and is suitable for the detection of objects against any background. The sensor always has the same switching distance, regardless of the color, shape and surface of the objects. Minimal height differences can be detected with the sensors and, for example, various parts can be reliably differentiated from each other. The IO-Link interface can be used to configure the reflex sensors (PNP/NPN, NC/NO), as well as for reading out switching statuses.

| Optical Data                                 |                |
|--|----------------|
| Range  | 1200 mm        |
| Adjustable Range                             | 1001200 mm     |
| Switching Hysteresis                         | < 10 %         |
| Light Source                                 | Red Light      |
| Service Life (T = +25 °C)                    | 100000 h       |
| Max. Ambient Light                           | 10000 Lux      |
| Light Spot Diameter                          | see Table 1    |
| Electrical Data                              |                |
| Supply Voltage                               | 1030 V DC      |
| Supply Voltage with IO-Link                  | 1830 V DC      |
| Current Consumption (Ub = 24 V)              | < 30 mA        |
| Switching Frequency                          | 500 Hz         |
| Switching Frequency (interference-free mode) | 250 Hz         |
| Response Time                                | 1 ms           |
| Response time (interference-free mode)       | 2 ms           |
| Temperature Drift                            | < 10 %         |
| Temperature Range                            | -4060 °C       |
| Switching Output Voltage Drop                | < 2 V          |
| Switching Output/Switching Current           | 100 mA         |
| Short Circuit Protection                     | yes            |
