

Model Number

ML300-8-1200-IR/25/115/120

Diffuse mode sensor
with 2 m fixed cable

Features

- Miniature design
- Easy to use
- Infrared light
- High operating range
- 45° cable connector

Product information

The ML300 series has a robust miniature housing and all the standard functional principles. Of particular note are the sensors with analog output, which return a value proportional to the distance. The 45° plug/cable connection ensures flexible mounting. An LED indicates a weak signal, e.g. due to dirt.
